EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan Kagen on May 12, 2005.

The application has been amended as follows:

IN THE DRAWINGS:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures 6A and 6B will each be labeled as PRIOR ART since only that which is old is illustrated. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

2. The following is an examiner's statement of reasons for allowance:

With respect to claim 1 in particular, the prior art of record fails to teach or suggest a printer having all of the structure as recited, in combination with and particularly including, the movable frame being formed with an opening

through which the winding shaft passes when the movable frame is moved between the first position and the second position.

With respect to claim 11 in particular, the prior art of record fails to teach or fairly suggest a printer having all of the structure as recited, in combination with and particularly including, the winding shaft being disposed in a path of the movable frame when the movable frame is pivoted from the closed position to the opened position and the movable frame comprising an opening therein of a sufficient size that the winding shaft does not interfere with the movable frame pivoting from the closed position to the opened position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
